Configuration Menu

Using the Cycle Gear Device Manager

The Cycle Gear Device Manager allows you to upgrade the firmware and configure the device settings directly from your PC. It is available for both Windows and Mac. For more information on downloading the Device Manager, please visit oem.sena.com/cyclegear.

Using the Sena Motorcycles App

The Sena Motorcycles App allows you to configure device settings and read the User's Guide and the Quick Start Guide. Download the Sena Motorcycles App for Android phone or iPhone from Google Play or App Store.

Troubleshooting

Factory Reset

If you want to restore the headset to factory default settings, use the Factory Reset in the configuration menu. The headset automatically restores the default settings and turns off.

Fault Reset

If the headset is not working properly for any reason, reset by gently pushing the pin-hole reset button located below the (+) button.

Fault Reset Button
