Charging

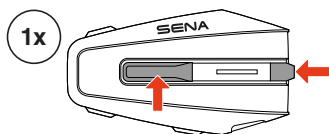

It takes 2 hours to fully charge.

- The VORTEX supports wireless charging with Qi-certified chargers. Full charging takes 5 hours at 20°C. Wireless charging speed may vary depending on the charger and environment.
- Any third-party USB charger can be used, as long as it is approved by the FCC, CE, IC, or other locally recognized regulatory agencies.
- Using a non-approved charger may cause fire, explosion, leakage, and other hazards, potentially reducing the battery's lifespan or performance.

04 PAIRING WITH BLUETOOTH DEVICES

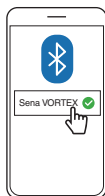

When using the VORTEX with other Bluetooth devices for the first time, they need to be paired. The VORTEX can pair with multiple devices, including two mobile phones and one GPS. However, it supports only one additional device, alongside a mobile phone, for simultaneous connection.

Phone Pairing

1.

2.

 "Phone pairing"

- When you turn on the VORTEX for the first time or reboot it after a factory reset, the VORTEX will automatically enter phone pairing mode.
- To cancel phone pairing, press any button.

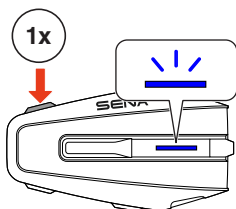

Second Mobile Phone Pairing

1.

 "Configuration menu"

2.

 "Second mobile phone pairing"

3.

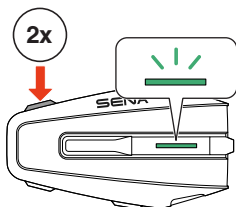

GPS Pairing

05 USING WITH A SMARTPHONE

Making and Answering Calls

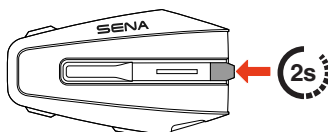

Answer a Call

End a Call

Reject a Call

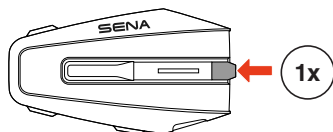

Siri or Google Assistant

Say "Hey Siri", "Hey Google", or tap the phone button to activate Siri or Google Assistant.

 "Hey Google" or
"Hey Siri"

or

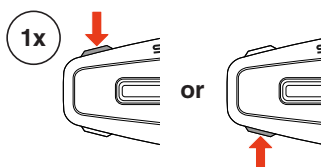

Speed Dial

Assign Speed Dial Presets

Speed dial presets can be assigned using the Sena Motorcycles app.

Use Speed Dial Presets

1. Enter the speed dial menu.
2. Navigate forward or backward through speed dial preset.

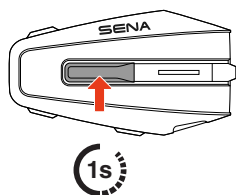

- ① Last number redial
- ② Speed dial (1→2→3)
- ③ Cancel

3. Tap the phone button to confirm.

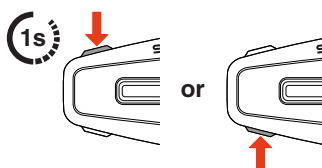

Music

■ Play/Pause Music

■ Track Forward/Backward

06 BLUETOOTH INTERCOM

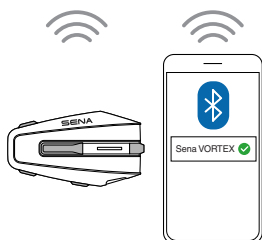

Bluetooth Intercom Pairing

To have a Bluetooth intercom conversation, you need to pair with the other Sena headset users. The other user's headset will be added to the intercom pairing list of your VORTEX, and vice versa.

You can add up to 3 headsets to the Bluetooth intercom pairing list, regardless of the headset model.

Using QR codes

1. Pair the mobile phone with the VORTEX.
2. Each user opens the Sena Motorcycles app and taps "QR Pairing."

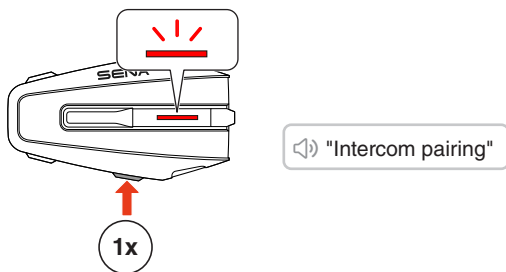

3. Scan the QR code displayed on the other user's screen.
4. Tap Save, and go to the "Bluetooth Intercom" menu to check the pairing list.
5. Tap the device name you want to pair with.
6. Repeat the process to add more headsets.

- QR Pairing is compatible with models featuring Bluetooth version 3.0 or later. For more information, visit [sena.com](https://www.sena.com).

Using a Quick Pair Button

QR pairing is highly recommended, but you can also pair with the other headsets using the quick pair button.

1. Tap the quick pair button on both devices to enter intercom pairing mode together.

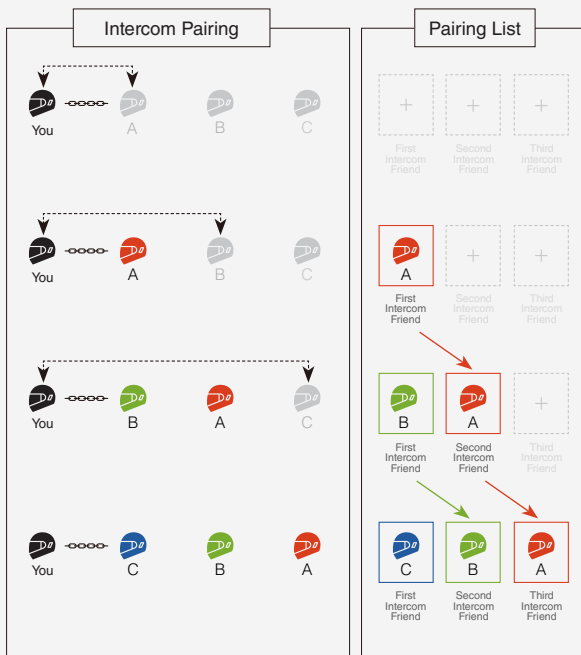

2. Wait until the pairing is complete. Once paired, a Bluetooth intercom connection is established.
3. To pair with another headset, please repeat the process above.

- It can take some time depending on the surrounding wireless signals, such as Wi-Fi.
- To cancel the intercom pairing, tap the quick pair button on the VORTEX.

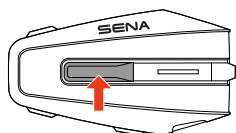

Bluetooth Intercom Pairing List

- Paired headsets are added to the Bluetooth intercom pairing list of your VORTEX. Tap "Bluetooth Intercom" on the Sena Motorcycles app to check the list.
- The intercom pairing list operates on a last-come, first-served basis. If your VORTEX is paired with multiple headsets for intercom conversations, the last paired headset is set as the first intercom friend.

07 UNIVERSAL INTERCOM

Universal intercom allows you to have intercom conversations with headsets from other brands as long as they support Bluetooth Hands-Free Profile (HFP).

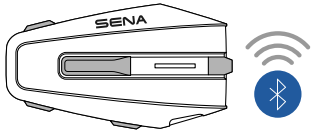

Universal Intercom Pairing

- 

1. Press the side button for 5 seconds.

 "Configuration menu"
- 

2. Press the side button 3 times.

 "Universal intercom pairing"
- 

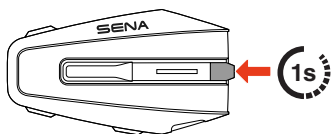

3. The headset enters pairing mode, indicated by the Bluetooth symbol.
4. Put a non-Sena headset in phone pairing mode and wait until the VORTEX automatically pairs with it.

Once paired, the universal intercom conversation is automatically established.

08 FM RADIO

FM Radio On/Off

On: "FM Radio On"

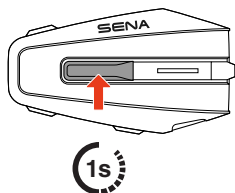

Off: "FM Radio Off"

Save to Preset

You can use the Sena Motorcycles app to save the station to your preset stations.

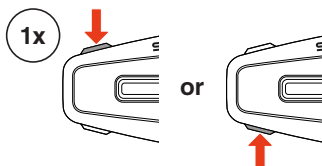

Select Station from Preset

1. Enter the station selection mode.

"Station Selection Mode"

2. Navigate forward or backward through preset stations.

"Preset (#)"

- If you do not press any button for approximately 10 seconds, or if you press and hold the multi-function button for 1 second while in the station selection mode, the headset will exit the station selection mode.

09 FIRMWARE UPDATE

I Over-the-Air (OTA) Update

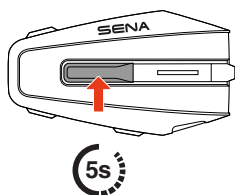

You can update the firmware via Over-the-Air (OTA) directly from the settings in the Sena Motorcycles app.

10 TROUBLESHOOTING

I Factory Reset

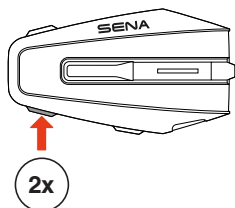

To restore the VORTEX to its factory default settings, simply use the factory reset feature.

1.

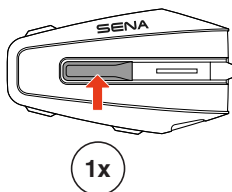

🔊 "Configuration menu"

2.

🔊 "Factory reset"

3.

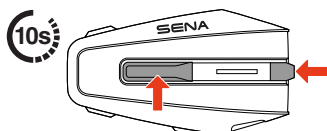

🔊 "Headset reset, good-bye"

Fault Reset

If the VORTEX is on but not responding, you can perform a fault reset to restore normal functionality.

Ensure the USB-C charging cable is disconnected, then press the phone button and multi-function button simultaneously for 10 seconds.

All settings will remain unchanged.
